

## Exhibiting at the international trade show

### “AHR Expo 2024” for refrigeration and air conditioning

Togami Electric Mfg. Co., Ltd. will be exhibiting at AHR Expo 2024, one of the world's largest comprehensive air conditioning and refrigeration exhibitions, to be held in Chicago, USA. We will exhibit magnetic contactors, starters, and relays, including compact high-capacity PCB relays (BR series) that are compatible with inverters, refrigerants with low greenhouse effect, and heat pumps. We would like to invite you to stop by our booth when you come to the exhibition.

1. Exhibition AHR Expo 2024 (<https://www.ahrexpo.com/>)

2. Date January 22-24, 2024

3. Place Booth No. N1255  
McCormick Place Convention Center  
2301 South King Drive  
Chicago, IL 60616

4. Products

(1) Inrush Current Prevention Circuit Specialized PCB Relay

Until now, high global warming potential alternatives to Freon have been widely used. However, international regulations aimed at preventing global warming are driving a transition to refrigerants with even lower greenhouse effects. Due to their slight flammability, attention is now focused on relays that do not serve as ignition sources in devices.
